

Go from a wet terrain to a dry one; no slip-ups. Wolverine C3 shoes provide traction on land or water – and feet dry faster. Featuring patented cross-channel circulation technology that pushes water out and pulls fresh air in. Feet dry faster. You stay out there.

Fast drying materials in the upper designed to wick moisture away from the foot. Aggressive rubber outsole adds grip and stability. Patented midsole forces water out and draws fresh air in to cool and dry. [Learn more](#)
